

EGRID Acceptable Use Policy

The "Acceptable Use Policy" rules that EGRID users must abide to. This Acceptable Use Policy applies to all members of EGRID Virtual Organisation, hereafter referred to as the VO, with reference to use of the EGEE Grid infrastructure, hereafter referred to as the Grid. The Abdus Salam International Centre fo Theretical Physics (hereafter referred to as ICTP) owns and gives authority to this policy.

The goal of the VO is to to investigate the role of grid technology in finance/economics, and to port as many as possible computational applications in the field of computational finance and related area on the EGEE Grid.

Members and Managers of the VO agree to be bound by the Grid Acceptable Usage Rules, VO Security Policy and other relevant Grid Policies, and to use the Grid only in the furtherance of the stated goal of the VO.
