

Discussion

Please use this page for planning and discussing non-trivial changes to any section of "Grid Made Easy". (Use the TO DO page to list tasks that are pending.)

To create an entry here, type the page name as a section heading, and enclose it in square brackets (so that it will act as a ZWiki? link). Then add the discussion topic (if more than one are under the same rubric, create a bulleted list); remember to sign it with your name.

For instance:

[Abbreviations and Acronyms]

Makes little sense to me; the expansion of acronyms is most of the time meaningless. Do you think we should keep it? ~~~ Riccardo M.

Abbreviations and Acronyms

Makes little sense to me; the expansion of acronyms is most of the time meaningless. For instance, does it help to know that LDAP is the "Lightweight Directory Access Protocol", if you have no idea about what LDAP *is*? Do you think we should keep it? --Riccardo M.

TO DO

Shall we merge the TO DO and Discussion pages? Shall we use the zwiki tracker for the purpose of tracking proposed changes and discussing them? --Riccardo M.
