E-grid live-CD

Worker Node Configuration

1. *Go to Shell*
 2. *Run Command: < Sudo bash >*
 3. *Run Command: < egrid-conf >*
 4. *In the main menu choose option 3: < Worker Node >*
 5. *Choose option 2: < Download configuration from CE>*
 6. *In CE's hostname box enter name of your machine: < uml-2.egrid.it >*
 7. *Choose OK. Download Configuration file is done.*
 8. *Choose option 3 to configure grid-mapfile:*
- And then choose manual option.
9. ? *Choose option 4 <Build configuration files>:*

In Confirmation dialog box, choose YES, then the configuration files will be rebuilt on your system.

Woker Node configuration is done. Press OK.

Finally, you need to apply the patch from www.egrid.it/bugzilla associated with bug 48.
